

## I Saw A Line

I saw a line           G           D  
In the eyes of my heart           G  
Moving through some chaos           G           D  
Moving through the dark           G  
And it moved by things           C  
Familiar to me           G  
But the things I saw           G           D  
Were a mystery (R1)           G

Refrain 1:

And it came to pass           C  
As it moved ahead           G  
That nothing lasted           C  
Wherever it led           G           D  
And it came to pass           G           D  
And did not stay           G

It touched some joy  
And it touched some tears  
It went through springtime days  
And winter years  
It touched some smiles  
And I had to laugh  
And it touched some people  
That I wanted back (R1)

I saw a line  
Moving side to side  
Some turns were sharp  
And some were wide  
And it went through days  
Where time went slowly  
When there seemed no purpose  
As far as I could know (R1)

And I finally saw  
As I looked behind  
How it formed a map  
Of my life time  
And I saw that God  
Had signed the plan  
And he brought to pass  
What His Son began (R2)

Refrain 2:

                  C  
And it came to pass  
                  G  
That I entered in  
                  C  
Where there are no tears  
                  G      D  
Where there is no sin  
                  G      D  
And it came to pass  
                  C      G      D      C  
And I saw Him then

                  G      D  
I saw a line  
                  G  
And it had no end  
                  G      D      C  
With every turn -----  
                  G  
It would just begin  
                  G      D      C  
It would just begin--- with Him
